

Are your customers demanding more from their networks?

MEET THEIR DEMANDS WITH A REAL SERVER THAT COMBINES Intel® PRO/1000 Network Connections and an Intel® Xeon™ processor with Hyper-Threading Technology.

- Intel® PRO/1000 Network Connections get data on and off the network fast, freeing up server resources.
- Servers using the Intel® Xeon™ processor with Hyper-Threading Technology can increase the performance of business applications.
- Together, Hyper-Threading Technology and Gigabit Ethernet connectivity can improve the performance of high-speed networks.

DELIVER THE SERVER SOLUTION YOUR CUSTOMERS NEED.
