TERMS AND CONDITIONS

DEFINITIONS

"Source Code" means computer programming code in human readable format.

"Object Code" means computer-programming code in machine-readable and machine-executable format.

"Software" means Intel PRO/Wireless Network Connection Software and any accompanying documentation, collectively, ("the Software").

LICENSE. Subject to the terms of this Agreement, Intel grants to You (and not to any subsidiary, affiliate, or other entity) a nonexclusive, nontransferable (except as set forth below), worldwide, royalty-free license under Intel's copyrights to:

- For distributors and integrators, the rights to reproduce, have reproduced and distribute the unmodified Object Code only versions of the Software, as

incorporated into Your applications, to Your customers, solely for use in connection with Your software applications which are designed to be used with Intel's wireless products, provided that: (i) You reproduce and include Intel's copyright and proprietary legends on each and every copy of the Software, and (ii) such replicated Software includes the end-user license agreement installed in the Software.

- For distributors and integrators, the rights: (i) to reproduce and have reproduced Object Code only portions of the Software, (ii) incorporate such Software portions with other code developed or used by distributor or integrator, provided however, that no actions may be taken by distributors or integrators which would cause such code to be subject to an open source license (as defined by <http://opensource.org/licenses/index.html> without limitation), and (iii) to integrate such software stack into its applications, to its customers, solely for use in connection with its software applications which are designed to be used with Intel's wireless products,. The foregoing notwithstanding, the aforementioned rights are contingent upon the following: (i) in no event shall the distribution of such software stack either reference or include the name of Intel, (ii) the distributors or integrators creating such software stack shall fully validate the software stack to ensure that the Software portion included in the software stack operates as intended with the Intel wireless products, (iii) the distributors or integrators distributing such software stack shall explicitly and expressly notify their customers that they and not Intel shall be responsible for any and all support issues arising for the use of the software stack, (iv) as between Intel and such distributors and integrators, the latter shall be fully liable for any issues arising from the creation of the software stack (including without limitation, infringement of third party intellectual property rights), the distribution of the applications, and any and all warranties or representations made to the end-user of the product(s) incorporating the software stack, and (v) any distribution of such software stack must include an end-user license agreement (EULA) with terms at least as restrictive as those contained in Exhibit B which either: (i) must be signed by the end user prior to the recipient of the code, or (ii) may be in the nature of a "break-the-seal license" provided that the EULA terms are also included in the readme file of the distributed code.
- copy, have copied, and distribute the end-user documentation, if any, which may accompany the Software, but only in association with distribution of the Software as detailed above, and provided that any changes that You make to the documentation do not render the information inaccurate or misleading. The foregoing notwithstanding, to the extent that distributors or integrators wish to distribute the end-user documentation with their aforementioned software stack, such distributors and integrators must remove all references throughout the end-user documentation to Intel.

ADDITIONAL RESTRICTIONS.

- Except as expressly stated in this Agreement, You shall not otherwise assign, sublicense, lease, or in any other way transfer or disclose the Software to any third party. You shall not reverse-compile, disassemble or otherwise reverse-engineer the Software.
- Except as expressly stated in this Agreement, no license or right is granted to You directly or by implication, inducement, estoppel or otherwise. Intel shall have the right to inspect or have an independent auditor inspect Your relevant records to verify Your compliance with the terms and conditions of this Agreement.
- You do not have any rights to use any Intel trademarks or logos in any manner whatsoever.
- No rights or licenses are granted by Intel to You, expressly or by implication, with respect to any proprietary information or patent, copyright, mask work, trademark, trade secret, or other intellectual property right owned or controlled

Intel Confidential

by Intel, except as expressly provided in this Agreement;

- You shall indemnify Intel and hold Intel harmless from and against any and all actions, claims, defenses, damages, expenses (including reasonable attorneys' fees) and liabilities arising from (i) Your use, reproduction, distribution or other disposition of the Software, (ii) Your use, manufacture, sale or other distribution of products which incorporate the Software or any part thereof, including without limitation, suits or claims brought against Intel by any third parties for infringement of third party intellectual property rights by Your products, or resulting from our breach of any warranty to the third party or for Your negligence to the third party.

CONFIDENTIALITY. If You wish to have a third party consultant or subcontractor ("Contractor") perform work on Your behalf which involves access to or use of the Software, You shall obtain a written confidentiality agreement from the Contractor which contains terms and obligations with respect to access to or use of the Software no less restrictive than those set forth in this Agreement, but excluding any distribution rights. Otherwise, You shall not disclose the terms or existence of this Agreement or use Intel's name in any publications, advertisements, or other announcements without Intel's prior written consent.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software remains with Intel or its suppliers. The Software is copyrighted and protected by the laws of the United States and other countries, and international treaty provisions. You may not remove any copyright notices from the Software. Intel may make changes to the Software, or to items referenced therein, at any time without notice, but is not obligated to support or update the Software. Except as otherwise expressly provided, Intel grants no express or implied right under Intel patents, copyrights, trademarks, or other intellectual property rights.

EXCLUSION OF WARRANTIES. EXCEPT AS PROVIDED ABOVE, THE SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY EXPRESS OR IMPLIED WARRANTY OF ANY KIND INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. Intel does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links or other items contained within the Software.

LIMITATION OF LIABILITY. IN NO EVENT SHALL INTEL OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, BUSINESS INTERRUPTION, OR LOST INFORMATION) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, INCLUDING WITHOUT LIMITATION, ANY MODIFICATIONS MADE THERETO, EVEN IF INTEL HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS PROHIBIT EXCLUSION OR LIMITATION OF LIABILITY FOR IMPLIED WARRANTIES OR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. YOU MAY ALSO HAVE OTHER LEGAL RIGHTS THAT VARY FROM JURISDICTION TO JURISDICTION.

NO SUPPORT. No technical support is provided to You or Your customers under this Agreement. You shall direct customers and distributors to contact You for technical support related to the Software.

TERMINATION. Intel may terminate this Agreement at any time if Intel determines in its reasonable discretion that You have violated its terms. Upon termination, You will immediately destroy the Software or return all copies of the Software to Intel. The following provisions shall survive any termination or expiration of this Agreement: Ownership of Software and Copyrights, Proprietary Rights, Exclusion of Warranties, Limitation of Liability, Indemnification, Confidentiality, Termination and General Provisions shall remain in effect.

GENERAL PROVISIONS

APPLICABLE LAWS. Claims arising under this Agreement shall be governed by the laws of California, excluding its principles of conflict of laws and the United Nations Convention on Contracts for the Sale of Goods.

RELATIONSHIP OF THE PARTIES. Neither party hereto will be deemed the agent or legal representative of the other for any purpose whatsoever and each party will act as an independent contractor with regard to the other in its performance under this Agreement. Nothing herein will authorize either party to create any obligation or responsibility whatsoever, express or implied, on behalf of the other or to bind the other in any manner, or to make any representation, commitment or warranty on behalf of the other party.

WAIVER AND AMENDMENT. No modification, amendment or waiver of any provision of this Agreement shall be effective unless in writing and signed by an officer of Intel. No failure or delay in exercising any right, power, or remedy under this Agreement shall operate as a waiver of any such right, power or remedy. Without limiting the foregoing, terms and conditions on any purchase orders or similar materials submitted by You to Intel, and any terms contained in Intel's standard acknowledgment form that are in conflict with these terms, shall be of no force or effect.

EXPORT RESTRICTIONS. Each party acknowledges that the Software is subject to applicable import and export regulations of the United States and of the countries in which each party transacts business, specifically including U.S. Export Administration Act and Export Administration Regulations. Each party shall comply with such laws and regulations, as well as all other laws and regulations applicable to the Software. Without limiting the generality of the foregoing, each party agrees that it will not export, re-export, transfer or divert any of the Software to any restricted place or party in accordance with U.S. export regulations. Note that Software containing encryption may be subject to additional restrictions.

U.S. GOVERNMENT RESTRICTED RIGHTS. All copies of the Licensed Items distributed directly or indirectly to the U.S. government are governed by and must be marked with the following legend: "The enclosed software products and documentation were developed at private expense, and are provided with "RESTRICTED RIGHTS." Use, duplication or disclosure by the government is subject to restrictions as set forth in FAR 52.227-14 and DFARS 252.227-7013 et. seq. or its successor. The use of this product by the government constitutes acknowledgment of Intel's proprietary rights in the product."

ASSIGNMENT, SALE OR TRANSFER. Neither this Agreement nor any rights or obligations hereunder may be assigned or delegated by Licensee (whether by operation of law or otherwise) without the prior written approval of Intel, and any attempt to assign any rights, duties or obligations hereunder without Intel's written consent will be void.

NOTICES. Any notice required to be given under this Agreement shall be in writing and shall be deemed given when sent by certified mail, confirmed facsimile transmission or overnight express courier to the address for such party set forth above.

SEVERABILITY. If any provision of this Agreement is held by a court of competent jurisdiction to be contrary to law, such provision shall be changed and interpreted so as to best accomplish the objectives of the original provision to the fullest extent allowed by law and the remaining provisions of this Agreement shall remain in full force and effect.

CONTROLLING LANGUAGE. Translated versions of this Agreement may be provided in local languages for informational purposes only, provided however, that the English language version of this Agreement shall be controlling in all jurisdictions.
