

# Using the Scanner

1. Open the scanner cover.
2. Place your picture face down on the scanner glass.
3. Line up the top corner of your picture with the left arrow on the front bed of the scanner.
4. Close the scanner cover.
5. Press the scanner's **Start** button.
6. Select PhotoStudio 2000 to start capturing the image.
7. Click the **Preview** button.
8. Use the mouse to draw a box around the section of the image you want to scan.
9. Click the **Scan** button.
10. Use the editing tools to enhance your image.
11. **Save** your image.
