Minimize risk and reduce  
busywork with a server solution  
from Intel and Microsoft.

Dear **[INSERT CUSTOMER'S NAME]**,

Owning a business isn't for the faint of heart. It's a balancing act—requiring you to satisfy the demands of your customers, employees, and partners, and to juggle overworked systems and stacks of paperwork. It can seem like a never-ending circle, continually pulling you away from revenue-building activities. But, it doesn't have to.

We **[OR INSERT COMPANY NAME]** build[s] and install[s] server solutions that are designed for businesses like yours, with products and software from trusted brands like Intel and Microsoft. Whether you're in the market for your first server or you're ready to upgrade to a more powerful system, we can help you find the right fit.

With Intel® Xeon® processor-based servers and Microsoft® Windows® Server operating systems, you can centralize and automate much of the busywork that's burying you.

- **Minimize risk:** Keep your business up and running by helping to secure critical data and information.
- **Respond faster** to customer requests and competitive challenges.
- **Work more efficiently:** Connect employees to shared resources, such as printers and fax machines, and improve collaboration with access to internal websites and files.
- **Reduce costs and complexity** by administering one-to-many changes.
- **Give staff access to business information**—from anywhere, at anytime.
- **Simplify infrastructure management** by centralizing network administration and automating security updates.
- **Enhance productivity** with a single directory for user authentication and authorization and tools to address network issues before they become problems.

The result: You'll have more time to devote to what you do best—growing your business.

Choose a scalable server solution from Intel and Microsoft, and you'll be backed by a partnership committed to delivering the performance, productivity, and security your business needs.

I look forward to learning more about your business needs and helping you select and install the right server solution. Please contact me at **[INSERT CONTACT PHONE NUMBER, EMAIL, AND WEBSITE]** for more information.
